

Returning to Building Use for Church Activities

Now that we have started to worship in person again, we are ready to proceed with care to open the balance of our facilities to resume other activities. To ensure that we continue to provide a safe environment for everyone, all of the general safety precautions related to worship services will apply to other church gatherings, including:

Answering the COVID -19 questions

Maintaining social distancing

Wearing masks

Using hand sanitizers and gloves as needed

We encourage you to continue with online technologies in order to maintain connections and strengthen community. Should you decide to meet in person, we ask that all groups submit a written request, using the attached form, to the Church Office including the following information:

What room/area do you wish to use?

How many people do you expect to attend?

What dates/times are you requesting?

For ongoing groups, this will be a one-time process.

As always, any food, drinks, or meeting materials should be removed following the gathering. Return the room to the condition in which it was found in preparation for the weekly sanitization process.

We look forward to welcoming you back to our facilities, and remain committed to maintaining a safe and healthy environment.
